TRANSPARENTA

SAMMELSTIFTUNG FÜR BERUFLICHE VORSORGE

Welcome to TRANSPARENTA

Through your current employer we provide you with the occupational pension (BVG) coverage. We have put together the relevant key information for you in brief. You will also find information that may be of interest to you on our website. If you have any questions we will be happy to help. We look forward to hearing from you.

Your personal pension statement

We will issue a personal pension statement to you when you join, when any changes are made or transactions are carried out, and once a year as of January 1st. Your pension statement shows the applicable contributions and benefits. These are calculated using the master data and salary data provided and in accordance with the relevant regulations of your pension scheme (pension plan). Please check your master data and notify us or your employer of any changes without delay.

Our guide to the pension statement provides detailed online explanations on all items, which are also available in French, German and Italian.

Web portal for pension scheme members

"TRANSPARENTA-Online" is our digital web portal, with login by means of secure two-factor authentication.

This enables you directly and independently to access your personal pension scheme member account, to carry out simulations and queries, and to exchange messages and documents with us in encrypted form.

A quide to first-time registration (in German) is available online.

Transfer of your 2nd pillar vested benefits

Any vested benefits are to be transferred to TRANSPARENTA. This is very easy to do: share our payment details, provided below, with your existing pension scheme or vested benefit institution. As soon as we receive your vested benefits we will credit them to your personal retirement account and issue a new pension statement to you.

You can obtain information free of charge from the 2nd pillar central office of the LOB Guarantee Fund as to whether and where you might have pension assets. It is worth clarifying this.

Benefits in the event of death

With us, cover for survivors' pensions for unmarried partners is included. However, for this we need a written registration of partner status from you. In addition, this enables the allocation of any lumpsum death benefits to be determined more precisely.

Г

On our website you will find ready-made registration forms including the conditions for entitlement.
